

The Stringer Catering Lounge is a welcoming place and has a fully equipped modern kitchen.

A hostess ensures that functions run smoothly, relieving families of hosting duties. This opens up more time to be spent with family and friends. We will arrange for everything to be provided.

All catering prices are per person including GST, with Stringer Catering Lounge Hosts to serve. Please note only food supplied by us may be served on our premises. We respectfully request no alcohol beverages in the Stringer Catering Lounge. If you have any special requests, please enquire.
